

RMB Consulting and Research is changing its name to Agora Environmental Consulting.

*Agora (n): Open space, a central gathering place
where ideas and information are exchanged*

Our new name will better identify the type of service that we provide. Our fundamentals, however, are unchanged. We remain committed to our customers and business partners. As we have done for over 25 years, Agora Environmental Consulting will continue to provide quality environmental research and regulatory support. Through these changing times, our staff is ready to help you address your emissions monitoring, testing, and reporting needs and your evolving plant performance, emission control, regulatory analysis, and source permitting issues.

We have transitioned our invoicing, website, email, etc. to reflect the new name. Technically, RMB Consulting & Research, Inc. remains the underlying corporate entity, so there is no need to revise any existing contracts. The name change is being executed via a simple DBA filing, so our Tax ID Number has not changed.

Nonetheless, we ask that you use the new name for all new contracts or correspondence and that you update any corporate databases or purchasing systems. As part of this transition, we are relocating our office. While our phone numbers will remain the same, our new address is:

**Agora Environmental Consulting
4000 Blue Ridge Road, Suite 160
Raleigh, North Carolina 27612**

Please update your browser and email software to reflect our new contact information. Our new website is **agoraenvironmental.com**. Our new email addresses take the form name@agoraenv.com (e.g., norfleet@agoraenv.com).

We thank you for your business and continued support. We are excited about this transition and welcome any questions or comments that you may have.
